

## Is your Brand Marketing on the ball?

**Now it can be, with Qball! An infinitely superior alternative to traditional screen printing, Qball offers the quality and luster others can only aspire to.**

### Qball offers:

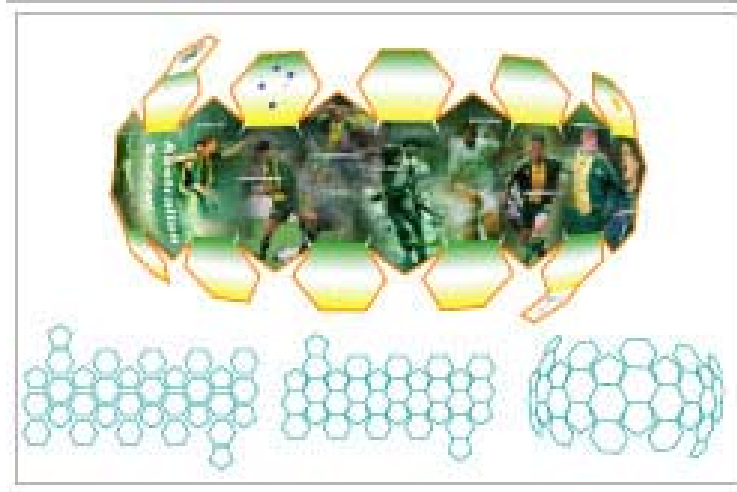

- Printing any kind of visual images such as character, product and scenery onto the surface of the ball;
- High definition full colour printing, guaranteeing a superior quality print to silkscreen;
- Special treatment of the double surface coating process allows the product to be used in its applications without getting damaged, and;
- Advanced close adhesion printing allows durability of print quality.

### Innovative in its field

This innovative product offers unlimited scope, creatively and technically, in promoting your club, organization or brand in today's promotional arena.

Our expert design team will work with you to help develop your images into beautiful ball designs that will amaze and captivate you. Whether your custom made Qball is designed to be collectible sports memorabilia, a commercial promotional tool to enhance your general marketing and advertising strategy, or a fun item for the sports community, Qball will always deliver a distinctive and beautiful product.

# Q V I S I O N

## Unlike alternative balls, Qball benefits from:

### **Transcription Print**

Better quality and durability than silkscreen printing, Transcription Printing is highly innovative, allowing vivid and truly colourful images to be transferred via a patented chemical process. No variance in image quality guarantees that the first ball produced is as good as the last.

### **Expression of High Resolution Images**

The clarity of the images reproduced is unrivalled. Whether a full colour pic or logo, single or multiple images, the finished result is extraordinarily crisp and sharp.

### **Printing on Partial or Whole Surface Area**

Unlike others, Qball is not restricted to printing onto partial areas, ensuring the full surface area of the ball is utilized to its maximum potential.

### **Efficient for Mass Production**

Allowing you to reach a greater marketplace, cost effectively.

## Welcome to the world of innovation!
